RECOMMENDED WIG CARE ♥

SIMPLE STEPS. BEAUTIFUL RESULTS.

1 GENTLE DETANGLING

Brush gently before washing using a wide-tooth comb or loop brush. Start at the ends and work your way up.

2 WASH WITH CARE

Use lukewarm water and a sulfate-free shampoo. Gently wash in a downward motion. Avoid rubbing or twisting.

3 CONDITION DEEPLY

Apply conditioner from mid-lengths to ends. Let sit for 2–5 minutes. Rinse thoroughly with cool water.

4 GENTLY DRY

Pat dry with a soft towel. Do not rub or wring. Place on a wig stand to air dry. Avoid using a blow dryer.

5 NOURISH & PROTECT

Apply a lightweight oil or serum to keep hair soft, shiny and frizz-free. Focus on mid-lengths and ends.

6 USE HEAT PROTECTANT

Always use a heat protectant before heat styling. This helps protect the hair and extends the life of your wig.

7 HEAT STYLE SMART

Use low to medium heat settings. Avoid excessive heat to maintain the hair's natural texture and shine.

8 STORE PROPERLY

Store on a wig stand in a cool, dry place. Keep away from direct sunlight and dust.
